

- Trusted push rods for reliable, rigid fixing of the PCB in the probe field against the force of the test probes
- Robust, pressure-resistant design
- Quick, easy installation

### Application

Push rods (NHS) are used in customisations to securely hold electronic circuit boards in place against the force of the test probes during contacting in the test fixture. Push rods are mounted in the pressure frame plate.

### General data

Product group:  
Series:  
Type:  
Version:  
Accessory type:  
Outer dimensions (TxL):  
Colour:  
RoHS-compliant:
